# APPEAL

**Dear Porvorkars,**

Thank you once again for your mandate in 2012, that gave me the opportunity to serve you and make a difference in Porvorim.

You may have already read my Report Card. We were able to get projects worth over **500 crores** sanctioned for Porvorim, making Porvorim a **model** city and an example for others to follow. None of this would have been possible without your active cooperation and support. Each time I had to struggle or fight for Porvorim, your support & encouragement have been my pillars of strength.

The Three pillars of the system we have put in place are being **Inclusive, Transparent & Accessible**. My Voters know I am just a call away. We have shared joys and sorrows. It has been a privilege to meet most of you in person & be with you during trying times and resolve issues together.

With your blessings, I was awarded the **National Youth Ideal Legislator Award** and nominated as the **Top Performer in Goa Assembly**. My protests and suggestions voiced in the Assembly have helped keep the Government accountable to the people.

Much has been achieved in the last 5 years; there is still a lot more that I have envisioned for Porvorim. Learning from my experiences over the last 5 years and with systems put in place, I hope to achieve my **Vision** for Porvorim, for which I come to you once again to seek your mandate and blessings for the forthcoming **2017 Assembly elections**.

I have worked tirelessly and will continue to work endlessly for the welfare and progress of **Porvorim** and my **dear Porvorkars**.

# MAJOR DEVELOPMENT WORKS

## WiFi Enabled Service Road

A service road has been constructed parallel to the national highway for decongesting vehicular traffic in Porvorim. This road has been enabled with Live Free, a Free WiFi service for our Porvorkars provided under the Porvorim Rising Initiative.

## Sewerage Network

The first phase of laying Porvorim's sewerage network is near completion. The successive phases will be executed in quick succession using advanced trenchless technology to fulfill our dream of a Clean and Hygienic Porvorim.

## Town Halls & Market Complexes

Good social infrastructure is the need of the hour and a desire of all Porvorkars. Keeping this in mind, a Modern Panchayat Ghar with an Air Conditioned Community Hall has been constructed in Socorro. This is the first Air Conditioned Hall in Porvorim available to all Porvorkars at subsidized rentals. A similar Panchayat Ghar will come up in Salvador Do Mundo soon. The aim of this is to provide all public amenities under one roof. A state-of-the-art Market Complex is slated to come up in Penha De Franca which will make it convenient for Porvorkars do their daily shopping.

## Gardens and Open Spaces

Green spaces have been preserved and new ones have been developed. Many gardens have been developed in the last 5 years to make Porvorim Green.

# MAJOR DEVELOPMENT WORKS

## Multipurpose Grounds

Multipurpose grounds will soon be operational at Socorro and Salvador Do Mundo. The work is on in full swing and will be completed at the earliest. A similar playground is also proposed for Penha De Franca. Multipurpose grounds envisage the availability of different Sports facilities at one place for the people.

## Effective Garbage Management

A comprehensive system for managing garbage has been put in place. Door to door collection of garbage has been started through the Panchayats. Garden waste collection has also been initiated as a pilot project, without any government aid.

## Accessible Governance

To Increase accessibility, our constituency office has been processing the forms of all government schemes and attending to complaints at a single window so that you don't have to run from pillar to post. It was always our aim to bring government schemes to the doorsteps of the citizens for truly accessible governance. We have also launched a round-the-clock Helpline Number 8308607788 for Porvorkars.

## Health Care Initiatives

Primary Health Centers have been opened up in Porvorim to ensure Quality Health care for Porvorkars. The availability of a PHC in Porvorim also makes it easy for Porvorkars to process health related Paperwork. Free health check up camps have been regularly organized, keeping in mind the motto of 'Health is Wealth'.

# MY VOICE IN THE ASSEMBLY

As your representative, I have been your voice in the Assembly. Whenever the government took decisions that were against the interests of Goemkars in General. I have stood up & fought for our Rights. I have made sure that the opinion of Porvorkars has been heard loud and clear by those in power.

As an **INDEPENDENT**, and not bound by any party policies, I have held the Government responsible for their actions. I have also co-operated when the issues were for the good of the common man & for the State at Large.

**TOP PERFORMER  
IN GOA ASSEMBLY**

# MY WAY AHEAD

## Electricity

Frequent power shut-downs and a shortfall of power were a common problem in Porvorim 5 years ago. As a new constituency and being an important commercial and residential center, my top priority was to secure additional load, upgrade transformers and improve the electricity infrastructure. So far, underground cabling has been carried out on the service road.

I propose to carry out underground cabling in all parts of Porvorim in a phased manner along with upgradation of transformers etc. This will reduce power disruptions.

## Nital Porvorim

Over the last 5 years numerous initiatives have been taken to ensure clean & hygienic environment. First phase of the sewerage system has been completed & soon individual connections will be provided.

Door-to-door garbage collection, garden waste collection, street cleaning programmes have been regularly organised. I propose to implement the successive phases of sewerage network, construct public toilets and put in a holistic system of garbage management.

## Health Care

It is essential for Porvorim to have quality healthcare services. A state of the art sub health center is a part of the Socorro Panchayat Hall. Ambulances have also been provided by me for any emergencies.

A 24x7 Primary Health Center with Trauma and pediatric ward is proposed in Porvorim. This is the need of the hour with Porvorim's proximity to the National Highway. A 24x7 pharmacy will soon be operational.

## Water

Water is the most important resource for us to survive. In 2012, Porvorim used to face a severe shortage of water. In the last 5 years, water supply to Porvorim has increased by 40%, new infrastructure like Over-Head Water Tanks, Ground level reservoirs, Pipes, Tanks and improvement of existing pipelines has been taken up.

Foundation stone for Rain water harvesting tank with a filtration plant has been laid in Porvorim. This will act as a catchment area for rain water and will provide 20 MLD of water which will fulfill the need of 24x7 water supply round the year for Porvorkars.

## Green Porvorim

Gardens and Parks have been an important part of my commitment to transform Porvorim along with regular afforestation programs. To increase the Green Spaces in Porvorim, I propose to set up themed gardens in the constituency. A Science Park with a study center has been proposed, an Art Park with an amphitheater and an exhibition center has been proposed which will have multiple activities wherein all sections of the society can come and relax. To promote art in the next generation, the local artisans, Kumbhars, painters, etc. will be provided with a space to conduct workshops.

# MY WAY AHEAD

## Fire Sub Station

A fire Sub Station for Porvorim has been sanctioned under the National Cyclone Risk Mitigation Project (NCRMP-II). A land for this project has also been identified and this is a long pending demand of Porvorkars. The Chief Minister has also given an approval for the project on the floor of the house.

I will speed up the implementation of the project as I realise the need for emergency services close to home.

## Agriculture

Traditional farming techniques have been preserved along with emphasis on modernization. I have constructed driving paths inside farms to enable movement of tractors and harvesting machines.

To make agriculture more profitable, I propose to provide transplanting machines to farmers.

I also propose to set up a **Farmers market** where farmers' can sell their produce directly to consumers. Consumers will also benefit with lower prices and availability of fresh vegetables.

## Traffic, Parking & Transport management

The needs of a developing constituency are growing and need proactive measures. Porvorkars have been facing traffic menace in the recent years, coupled with the lack of public transport, which is a major challenge. I have installed synchronised traffic signals along the National Highway without monetary support from the government, which has eased the congestion of traffic.

To curb the parking menace, I propose a cost-effective, state-of-the-art multi level parking facilities with modern amenities as and when required. Safety of pedestrians is of paramount importance. I therefore propose to construct underpasses or skywalks at major junctions for people to cross the highway. I also plan to press additional buses into action on all specific internal routes. Necessary infrastructure for rickshaws, motorcycle pilots & Taxi stands will be created as required.

## E - Governance & Public Safety

In order to make it easy for Porvorkars to access various government related facilities works or issues, I plan to launch an app using the E-Governance platform.

I propose to install CCTV cameras in all public places to increase security and help in fighting crime. I also propose to construct footpaths and cycling tracks alongside roads. Porvorim being a rapidly growing constituency, I realise the need for planned development. Keeping this in mind, I have pressed for a development consultant to be assigned to Porvorim. This requirement has also been cleared in the assembly.

## Sports

I have always been a strong supporter of sporting activities in Porvorim. In the last 5 years, basketball court, badminton courts, skating rink and multipurpose playgrounds have already been created.

Apart from the existing initiatives of facilitating and promoting sports tournaments, playgrounds and Multipurpose sports complexes will also give a boost to the youth of Porvorim. The construction of sports complexes is underway in Salvador Do Mundo and Socorro and they will be open to the public very soon. Jogging track will be constructed.

# MY WAY AHEAD

## Senior Citizens

A society is known by the manner in which it treats its elders. Welfare of the senior members of our society is a topic very close to my heart.

I propose to set up **day care centers** with backup medical support for emergencies.

## Women Empowerment

Numerous projects have been started in the past 5 years through the Self Help Groups that were set up. Taking this ahead, I would like to set up a centralized Workshop and an Incubation center to cater to women who would like to avail vocational and skill development training.

I also propose to facilitate the sale of their products through **innovative marketing methods**.

## Employment & Vocational Education

In the last decade, a lot of Goan youth have moved outside the state and settled abroad or in other parts of the country for employment.

I plan to work with the Goa Government to set up courses for youth which will find them highly paid jobs in Goa.

I also propose to set up an Information Technology Hub and an incubation center in Porvorim. IT companies will be welcomed to set up their operations in Porvorim.

There will be an incubation center where entrepreneurs willing to start their own venture can get mentorship and support. For me, bringing our youth back to Goa is the most important step to preserve our Goemkarponn!

## Crematoria & Kabrastans

Existing Crematoria and Kabrastans need to be renovated keeping in mind the representations made by community leaders. While maintenance of these places has been consistently taken up in a phased manner, I propose to **construct new crematoria and Kabrastans** for the convenience of the people as and when required.

## Animal Care Center

To tackle the issue of stray animals, I have already proposed an Animal Care center where dogs, cattle, etc. can be housed.

The land for this has been demarcated and the work shall commence soon.

Vote for MIKE

## Total amount sanctioned in Porvorim Constituency from 2012-2017
